Thi Vo

Senior Mobile App Engineer

📍 Phú Hữu, TP. Thủ Đức, HCM | Phone: 0966862753 |Email: thitruongvo@gmail.com | Website: https://rocketeerfly.github.io

Profile

Mobile developer with a strong background in both mobile and backend technologies. I am dedicated to ensuring optimal user experience (UX) and high performance in applications that fulfill user needs. My focus lies in crafting well-architected designs that are capable of future extensions and provide a comfortable working environment for the development team.

As a dedicated professional, I am not only focused on building applications that meet requirements but also always willing to offer ideas to clients for enhancing app engagement. Excited about contributing my expertise and energy to impactful projects.

Experience

May 2024 - Present | VNG Solutions: Senior/Lead mobile app developer

- Solo developer for core projects, leading end-to-end development (architecture to store deployment) for 3 Middle Eastern startups' inaugural apps.
- Stepped into team leadership during scaling phases: task coordination, code reviews, and mentoring junior developers on technical challenges.
- Enhanced app security by addressing issues identified during penetration tests and ensuring compliance with Middle Eastern regulations, including GDPR and SACS-002.
- Skills: *React Native, Flutter, Team Lead*

2015 - Present | Indie mobile app developer

- Pursuing personal projects, with a focus on bringing innovative app ideas to life. This endeavor provides opportunities to apply new frameworks, technologies, and languages. Most of them can be found on the Appstore and Google Play.
- Skills: *React Native, Flutter, Firebase, Swift, Objective-C, NodeJS*

2016 - May 2024 | Poeta Digital: Senior/Lead mobile app developer

- Primarily engaged in developing applications using React-Native, and also responsible for app publishing.
- From the beginning of 2023, assumed the role of mobile team leader, responsible for codebase development, mobile release checklists, code reviews, sales estimation, architectural design, and supporting junior team members.
- Demonstrated versatility by working on short-term projects utilizing Swift, Xamarin, or UWP.
- Served as a full-stack web developer (Reactjs, Java Spring Boot) for a 10-month project named Hyperproof, collaborating with overseas teams.
- Skills: *React Native, Team Lead, Agile, Estimation, Technical Design*

2015 - 2016 | Dadadee LTD: iOS developer

- Within the first two months, collaboratively developed an eCommerce iOS app named Dadadee, mirroring the features of dadadee.com. Subsequently, submitted a project for planning trip itineraries on mobile to the App Store (Wanderlust). Skills: *Swift, e-commerce*

2015 - 2016 | Viettel ICT: Fullstack developer

- Over a span of two years, contributed to a significant project, a travel app aiding visitors in exploring Vietnam (Tourist.ONE, Tourist.ONE Manager). Responsibilities included both client-side (iOS app) and server-side development. Skills: *Objective-C, Java (Spring + Hibernate)*.

2012 - 2013 | ME Corporation: Game developer

- Worked as an intern iOS developer, engaging in various game projects utilizing Objective-C, Cocos2D, and Box2D frameworks.
