THI VO
Senior mobile developer

ABOUT ME

Mobile developer with a strong background in both mobile and backend technologies. Committed to delivering optimal UX through innovative and maintainable architecture. Excited about contributing my expertise and energy to impactful projects.

WORK EXPERIENCE

2012 - 2013
iOS Developer - ME Corp
Worked as an intern iOS developer, engaging in various game projects utilizing Objective-C, Cocos2D, and Box2D frameworks.

2013 - 2015
Full Stack Developer - Viettel ICT
Over a span of two years, contributed to a significant project, a travel app aiding visitors in exploring Vietnam (Tourist.ONE, Tourist.ONE Manager). Responsibilities included both client-side and server-side development.

Objective-C, Java, Spring, Hibernate, Oracle Database

2015 - 2016
iOS Developer - Dadadee LTD
Within the first two months, collaboratively developed an eCommerce iOS app named Dadadee, mirroring the features of dadadee.com. Subsequently, submitted a project for planning trip itineraries on mobile to the App Store (Wanderlust)

Swift, eCommerce

2016 - Present
Mobile App Developer - Poeta Digital
Primarily engaged in developing applications using React-Native. Additionally, demonstrated versatility by working on short-term projects utilizing Swift, Xamarin, or UWP. Served as a full-stack web developer (Reactjs, Java Spring Boot) for a 10-month project named Hyperproof, collaborating with overseas teams. Since the beginning of 2023, assumed the role of mobile team leader, responsible for codebase development, mobile release checklists, code reviews, sales estimation, architectural design, and supporting junior team members.

React Native, Swift, Reactjs, Team Lead, Agile

2015 - Present
Indie Mobile App Developer
Pursuing personal projects, with a focus on bringing innovative app ideas to life. This endeavor provides opportunities to apply new frameworks, technologies, and languages. Most of them can be found Appstore and Google Play

React Native, Swift, Objective-C, Flutter, Node.js, Firebase
